

3-Day Cylinder Shipping Program

At Parker, we realized that we can't put your operations on-hold while you wait on an overdue product delivery. Our goal is to minimize your downtime and help your just-in-time by delivering your cylinder as quickly as possible. That's why we now offer three-day shipping for standard NFPA tie rod hydraulic and pneumatic cylinders.

Cylinders You Need

With more than 100 years of cylinder design and manufacturing experience, Parker's three-day shipping program includes key cylinder features and options that are most frequently used in the markets we serve. Our customers will find more options in our program than any other cylinder shipping program in the industry.

When and Where You Need Them

Unlike other cylinder shipping programs, we will take orders from 8:00 AM until 3:00 PM in every U.S. time zone. Parker's regional manufacturing facilities are strategically located to serve our customers across the United States.

Three-Day Cylinder Shipping Program

- Orders must be received before 3:00 PM within your region (EST, CST, MST, PST).
- Orders will be processed and shipped three business days after order entry.
- All orders are dropped shipped to your location.
- We reserve the right to proactively request an alternate ship date.
- Contact your customer service representative for a list of complete terms and conditions.
